Penske respects your privacy. Penske collects contact, driver's license, and payment information from Customers at time of rental, and shares this information with service providers as needed to facilitate the rental process, perform watch list checks, and process payments. You may have the right to request copies or deletion of the personal information we collect about you under certain local privacy laws. For details on how Penske and its trusted partners manage your personal information, provide you with choices regarding your personal information, and a statement of your privacy rights, see our full Privacy Policy at www.gopenske.com/privacy. You may also contact us at privacy@penske.com or (844) 967-0109.

Customer acknowledges that Customer has read, or been given an opportunity to read, the Rental Agreement, including this Cover Sheet, the General Terms and Conditions, as well as any attachments hereto and agrees to be fully bound by its terms. Before deciding whether to purchase the optional limited damage waiver, you may wish to determine whether your own automobile insurance already affords you coverage for damage to the rental vehicle. To the extent the Customer had purchased Limited Damage Waiver coverage, Customer acknowledges reading, understanding, and agreeing with the disclosures, exclusions, and terms and conditions applicable to Limited Damage Waiver as set forth in Attachment D to the Rental Agreement.

DRIVER™ APP — HOS MODULE

Quick Start Guide

This Quick Start Guide will help you get up and running with the Hours of Service (HOS) module of the **Penske Driver** app. For detailed information and instructions, visit gopenske.com/hos.

Before You Begin Logging Hours

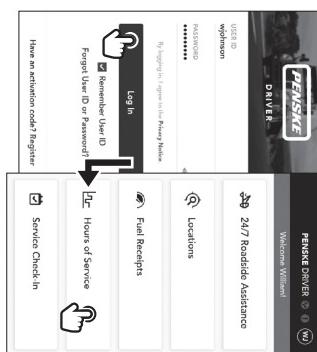

- Make sure the Bluetooth® settings are enabled on your Android or iOS device
 - Location services need to be activated.
 - Open and sign in to the app **before powering on your vehicle** to ensure ELD is functional.

Log in to the Penske Driver app and select “Hours of Service” from the menu of options.

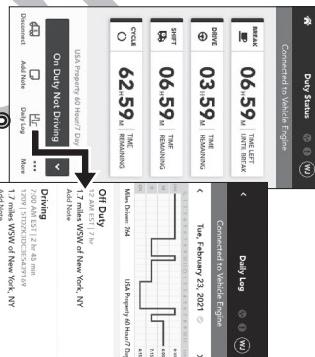

Driver app and select “Hours of Service” from the menu of options.

- 2** Connecting Your Penske

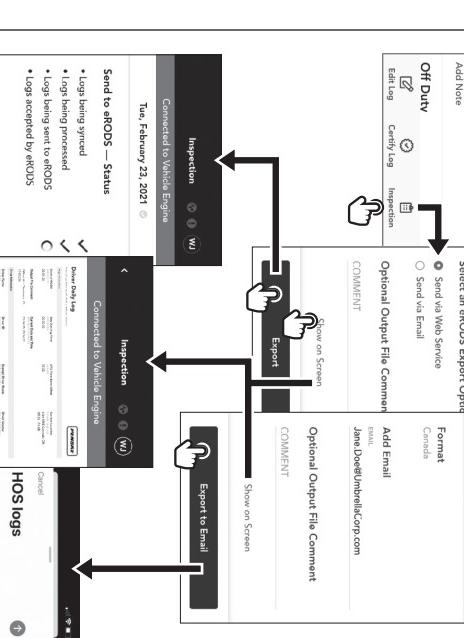

4 Viewing Hours of Service Log

app will record all of your duty status changes and will automatically draw your graph throughout your day. To view your log, select "Daily Log" from the Duty Status screen.

5 Showing Alerts and Malfunctions

If issues arise while you are using the app, alert notices will appear along with corresponding options. The app also features malfunction monitoring. If an error occurs, tap on "Go to Issues List" on the Malfunction screen to see what types of errors have occurred. Once a specific issue is selected, you will be able to view suggestions for troubleshooting.

③ Changing Duty Status

The Duty Status screen displays your

In the event you are stopped for an inspection, select the “Inspection” option at the bottom of the Daily Log screen. You will then be able to choose between displaying your daily log on screen, sending to eRODS (USA) or emailing your log (Canada). Please choose the appropriate option per the request of the roadside inspector.

Exhibit 1

To change your duty status, select the button labeled "Current Status" and make your selection.

t
Canada Format

Both USA and Canada formatted logs can be viewed on the screen when the "Show on Screen" option is selected. USA formatted logs can be submitted directly to eRODS when the "Send to eRODS" option is selected. The "Export to Email" button allows Canada logs to be emailed to an email recipient when a valid email address is entered.

TRALIA 8-DAY RENTAL EXEMPTION

The Truck Rental and Leasing Association, Inc. (TRALIA) exemption has recently been provisionally renewed by the Federal Motor Carrier Safety Administration (FMCSA). The exemption allows drivers of property carrying commercial motor vehicles (CMVs) rented for 8 days or less, regardless of reason, to not use an ELD in the vehicle. These drivers remain subject to the standard HOS limits and must maintain a paper record of duty status (RODS) if required.

SUMMARY

FMCSA announces its decision to provisionally renew the Truck Renting and Leasing Association, Inc. (TRALIA) exemption from the provisions that require a motor carrier to install and require each of its drivers to use an electronic logging device (ELD) to record the driver's hours-of-service (HOS). The exemption allows drivers of property carrying commercial motor vehicles (CMVs) rented for 8 days or less, regardless of reason, to not use an ELD in the vehicle. These drivers remain subject to the standard HOS limits and must maintain a paper record of duty status (RODS) if required.

DATES

The exemption renewal is for five years and this renewed exemption became effective October 12, 2022, and it expires on October 12, 2027.

Dedication at every turn.

Selective Catalytic Reduction and Diesel Exhaust Fluid

What you need to know

New emission technologies require new dashboard alerts

To meet stricter government diesel emission requirements and to help deliver improvements to overall vehicle operation while protecting the environment, Penske vehicles that are model year 2011 and newer are equipped with additional driver notification symbols on the dashboard.

Why we need new dashboard signs.

Selective Catalytic Reduction (SCR) is the leading diesel engine technology being used to meet federal emission regulations. With the new emissions requirements, manufacturers had to add new indicator signs to the dashboard.

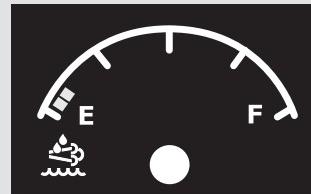

With this change, it's important for drivers to recognize the new symbols on the dashboard and know how to respond safely and efficiently.

What you need to know.

DEF is stored in a separate tank from diesel. Just like filling up a diesel tank, drivers will need to watch their DEF gauge and fill the tank when needed. They can refill the tank at any Penske fueling location or major truck stop. On average, heavy-duty vehicles can go approximately 300 miles per gallon of DEF and medium duty vehicles can go about 400 miles per gallon of DEF.

Lights on your dashboard.

What your DEF gauge may look like.

Warning lights requiring action or your vehicle may not operate properly.

Signals an emissions malfunction.

Signals that the DEF is getting low.

Questions? We're here to help 24/7.

If you have a question about a dashboard light that appears while driving your vehicle, call our 24/7 Roadside Assistance service line and one of our trained associates will help you.
